# Message from President

**“Education not only prepares the youth to meet the challenges faced in the society but also helps them to improve their living standards.**

Three decades of service in the government sector as a teacher and Headmaster, made me realize that many young girls and boys fail to attain higher education due to poverty. Believing education to be the most powerful weapon to change the world, we cannot go blind on such issues. Every young mind has the right to dream and achieve it. As responsible citizens we just have to extend some support that gives them courage and guidance in reaching their goals.

This thought has led the like-minded people join hands to form this Educational Society that identifies the needy and extends supports till they get settled in their life.

**“ Coming Together is Beginning.  
Keeping Together is Progress.  
Working Together is Success ”**

This spirit of togetherness and commitment has made the group raise year by year in reaching out to the needy. Its wonderful to see the youth, who received support from this society, joining as members after attaining jobs. Such sense of responsibility towards the society is what the team has dreamt in the initial stages. Hope to continue this spirit for ever with the support of all the esteemed members.

Thank you all for joining hands in the noble cause of educating the needy.

P L Narsimha Reddy

# **PLNR EDUCATIONAL SOCIETY**

## **(Regd. 691/2017)**

PLNR Educational Society is a Registered non-profit organisation dedicated to provide financial support for higher education of economically backward meritorious boys and girls, single parent students and orphan students.

The Society was formed in 2014 (formally registered in 2017) by Shri P L Narsimha Reddy, Retired Headmaster from Zilla Parishad High School Neredmet, Hyderabad (presently a permanent resident of Pranaam) and some of the teachers of his school, to render financial and other assistance to help the under privileged students to fulfil their dreams and to be self-reliant through vocational education. Even prior to setting up a formal society, these individuals have been rendering this great service from 2011 itself.

### **Courses:**

The support is given for vocational courses like Diploma (Polytechnic), Medical Lab Technician (MLT), Accounts & Taxation (A & T), Computer Science and Engineering, Multipurpose Health Worker (Female) and ITI. All these courses are post SSC (10th standard) and the students completing to these courses have better chances of getting jobs or earning money on their own. Support is also provided to eligible students pursuing courses in IIT (Basara), B.Sc (Nursing), B.Pharmacy, , Para Medical courses, Diploma in Education and Computer Graphics & Animation.

### **Target Group:**

Preference is given to students who may otherwise drop out mainly because of financial constraints. Such students are identified by teachers who are associated with the society.

### **Selection & Payment:**

Each student who wishes to get support need to fill in the Application form. Through this complete details of the family is submitted to the executive committee. On getting satisfied with the conditions the EC takes a decision for the amount to be funded. Selected students will be given financial support in the form of a cheque on the student's name. After collecting the cheque the student has to submit the fee receipts to the concerned member who has introduced him /her to the society. These members also act as mentors for such students and monitor their academic progress on a continued basis. After each academic year the students have to submit their marks memos to the concerned person, society will continue financial support to the students provided they must clear the examination without any backlog.

Starting with a small group, the society now has 203 members, many of the new entrants being Senior Citizens of the Pranaam Community. 30 beneficiaries who got support have joined as members after settling in jobs, with this the total number of donors increased to 233. Any interested person can become a part of this noble service by joining as a member of the society by paying a small amount of Rs.1,200 only. No doubt there are a number of individuals who happily pay much higher amounts. There are a few very generous donors who have contributed up to Rs 1 lakh & more also.

There some donors who have given standing instructions to his bank to credit Rs 5000 from their monthly pension/income to the society every month over their life-time for this noble cause. This indeed a great gesture on the part of such members, one of them being a senior citizen.

This obviously shows the tremendous trust the donors have on the society and its governing body in ensuring that every Rupee contributed by them reaches the intended beneficiaries.

Any contribution is to be through cheque or online payments only. All disbursements are also only through cheque, to make all money transactions fully transparent. The entire amount received as contributions is spent only on students and that all the persons associated with the society meet all their expenses by way of transport, conveyance or entertainment etc from their own resources and not from the society's finances.

The contributions made to the society has got Tax exemption benefits under 80 G of Indian IT department.

During this academic year 2022-23 The society has funded Rs. 9,82,950/- (nine lakhs eighty two thousand nine hundred fifty rupees only).

Till now, 227 students have been extended financial support amounting Rupees : Rs. 49,03,925/- (Forty Nine lakhs three thousand nine hundred and twenty five rupees only).

They have paid the tuition fee for my Intermediate and B.Tech. that I pursued from one of the renowned colleges of Hyderabad. With this support I could make the path smoother to reach my goal. Even during the difficult times when I wanted to quit, the extended moral support by the members kept me moving further. Now, I am working as a Digital Interaction Advisor, [24]7.ai . Qualifications : B.Tech. (CSE)

**Testimony:** I had always dreamt to be a software engineer since my school days. Understanding the financial position of my parents, I had to complete my schooling in government schools where my mathematics teacher Mr. K.K. Mohan Rao Garu guided me to reach my goal. With his moral support I could complete my Diploma in Computer Science Engineering from an esteemed institution Kamala Nehru Polytech College for women. Later, qualifying EAMCET, I joined B.Tech. at JBIET. The biggest problem was then to manage funds for the expenses. Though I got support from an NGO to pay the tuition fee, I needed help to meet other expenses.

At this juncture, Mohan Rao sir introduced me to the PLNR Educational Society. With the support, both moral and financial, I gained confidence and completed my graduation with good score. Now I am placed at Cyient as a Junior Engineer and earning handsome salary to meet my family needs. I am very thankful to the society for its loving and caring support that made many students like me to fulfil our dreams.

I was very much interested in continuing higher education. But unfortunately my father expired during my B.Sc. second year. That was the biggest loss to my family. But I didn't want to stop my education. I was very much interested in doing MBA, then I gave CAT (common admission test) nationwide competitive exam in 2020 and secured a decent percentile.

The greatest thing about them is that they didn't even know about me. They never saw me in person and had no idea about me... But still they believed in me and paid literally 1,00,000/- ( One Lakh Rupees ) for my first semester fee. With the help of the great people now I successfully finished my Masters from NIT Trichy, Tamil Nadu. Now I am happy to share that I got placed in IDBI bank as assistant manager with (12 LPA..) My father is a cab driver and my mother is a private employee. I'm the elder daughter and I have a younger brother G. Srikanth pursuing B.Tech 3rd year in Vardhaman College, Hyderabad who is also a beneficiary of PLNR Educational Society

I have done my schooling in Nalanda High School, in 2015 with 9.5 GPA. Intermediate in Narayana junior college in 2017 with 95.8%. I have secured 4316 rank in TS-EAMCET and got an admission into Chaitanya Bharathi Institute of Technology(CBIT) in B.E. Civil Engineering. In 2020 due to the sudden pandemic and lockdown my father has lost his business and there was no source for income. And in the same year my brother completed his intermediate and he got admission into Vardhamann College of Engineering.

It has become very critical for my parents to pay both of our fees. Then I started taking Home tuitions for students up to 12th standard to support my parents. But my parents were unable to pay our fee, then I got to know about PLNR Educational Society and approached Narasimha Reddy sir for help. Then Narasimha Reddy sir helped us in paying my fee by providing Rupees 20,000/-.

During the pandemic 2 years I received Rupees 40,000/- from PLNR Educational Society.

With all your support and encouragement, I have successfully completed my studies B.E. Civil Engineering with 8.29 CGPA and I got placed in Cyient as Design Engineer through Campus Placements.

PLNR Educational Society has helped us a lot by providing the necessary funds for my education during the pandemic period with which I was able to complete my studies successfully.

It's an immense pleasure to be a beneficiary of PLNR Educational Society . My sincere thanks to all the donors of PLNR Educational Society for guiding, encouraging, and motivating students like me to continue their studies.

I would like to convey my heartfelt thanks to PLNR Educational Society. I am happy to share that I would like to spread my hands towards contribution and support the students financially and mentally in achieving their goals by providing career guidance. I wish this PLNR Society continues forever and fulfills the dreams of the students and their parents.
